Valley Transit  
1401 W. Rose St.  
Walla Walla, WA. 99362

The Christian Aid Center enthusiastically supports the Valley Transits 'application for financial assistance to purchase three additional mini-buses for our community's Dial-A-Ride program. Job Access is a vital need to our low income guests. Dial-A-Ride provides these guests transportation where otherwise, they may be unable to maintain employment.

In addition, we support funding for the Intelligent Transportation Systems (ITS) hardware and software to improve the user experience of public transportation customers. Again, with our guest population, this program would provide an easy means for customers to get information about the transportation services available to them, particularly for customers with accessibility challenges.

Sincerely,

Jason Wicklund  
Executive Director  
Christian Aid Center
